SUMMARY

Software Engineer with a Computer Science degree (110 with highest honors), recognized by **Forbes** as one of the **Top Graduates 2025** for applying AI to fashion. **Curious** and **goal driven**, able to break down workloads into small steps and milestones. **Bilingual** in Italian and English, highly adaptable with strong cross-cultural **communication skills**, honed through public speaking and acting. Seeking a role within an innovative and stimulating environment where I can contribute to ambitious projects, tackle complex problems and collaborate with talented people, leveraging both my technical and communication skills.

EDUCATION

Bachelor of Science in Computer Science

Nov 2020 – Apr 2025

University of Bari "Aldo Moro"

- **Final Grade:** 110/110 with highest honors
- **Thesis:** "Personalized Fashion ADV" – Engineered an AI-powered system that leverages user profiles and clothes data to automatically generate personalized fashion advertisements.

High School Diploma in Computer Science & IT

Sept 2015 – Jul 2020

I.I.S.S. Ferraris Molfetta

- **Final Grade:** 100/100 with highest honors

WORK EXPERIENCE

AI Research Intern

Nov 2024 – Apr 2025

SWAP Research Group – University of Bari

- Pivoted the project's scope from automotive to high-fashion, pitching a forward-looking, market-driven vision that earned recognition by Forbes as a top-tier industry innovation.
- Engineered the backend from scratch, including database, LLMs and VLMs benchmarking and advanced prompts to transform user profiles and fashion attributes into tailored ad visuals.
- Autonomous data analysis and evaluations, validating the model's efficiency and optimization metrics.

Computer Science Tutor

Sept 2022 – Sept 2026

Freelance

- Delivered tailored 1-on-1 and group training for high school and university Computer Science students.
- Enhanced communication and leadership skills by adapting teaching methodologies to diverse technical backgrounds and learning speeds.

IT Support Specialist

Apr 2016 – May 2018

Local Police Department (Municipality of Molfetta)

- Managed and maintained IT infrastructure and technological hardware within the department.
- Handled fine management and administrative data processing using dedicated institutional software.

SKILL, LANGUAGES & CERTIFICATIONS

- **Technical Skills:** C/C++, Java, Python, SQL, Git, GitHub, CI/CD, Agile Scrum.
- **Languages:** Italian (Native), English (Fluent), Spanish (B1).
- **Certifications:** CyberChallenge.IT (Cybersecurity Advanced Training), Cambridge English: Advanced (C1), Cisco IT Essentials, Cisco Routing and Switching.
- **Soft Skills:** Team Leadership, Public Speaking, Cross-Cultural Communication, Problem-Solving.
- **Interests:** Competitive Programming, Reading, Cinema, Acting and Chess.
